

Job Posting

Contract Safety Consultant Position

Location: One in Calgary; One in Edmonton, Possibly in Red Deer

These opportunities are ideal for a junior or intermediate safety professional looking to begin a career as a Health and Safety Consultant in a contractor role. Turner Reid Consulting will be able to provide a reasonable level of work to conduct COR H&S audits and audit reviews for manufacturing companies. Opportunities to do contract consulting work will also likely arise out of this position based on demonstrated level of knowledge and skill. This is an ideal position for someone starting out in consulting by being able to have work to get started and have a solid income while continuing to build your consulting/contract business.

Skill and Education Requirements:

- Two to five years of health and safety experience
- Formal education/course work in Health and Safety and/or training including a certificate program or diploma, equivalencies will be considered.
- Two or more years of working experience in a manufacturing facility
- Auditing knowledge and experience would be a definite asset
- Manufacturing Safety Officer designation would be a significant asset
- Knowledge and understanding of the Alberta OH&S legislation
- Proficient reading and writing in the English language
- Particular attention to detail is a requirement
- Ability to exercise good judgement and to use discretion
- Excellent customer service skills and an ability to provide timely service and meet deadlines is critical
- Willing to travel and stay overnight (if necessary) in locations like Red Deer, reasonable expenses will be covered
- Ability to act in a professional manner and demonstrate honesty and integrity at all times while performing responsibilities
- Computer proficiency with Microsoft Word, other programs will also be helpful
- A working knowledge of the Workplace Health and Safety PIR and COR programs would be an asset
- Experience in developing H&S manuals and/or health and safety management systems would be a definite asset

Training and Skill Development

- Where required, training and time will be spent developing skills through formal training courses and through on the job training

Contractor Requirements

- Obtain liability insurance of \$2,000,000.00
- WCB coverage
- Availability of your own vehicle in good working condition, and a valid Class 5 Alberta license, a current Alberta Driver's Abstract is required.
